B.R.M CHRONOGRAPHES LAUNCHES THE V6 MOON MASTER

Mother-of-pearl, polished bronze, and ceramic treatment: B.R.M Chronographes takes a new step in the art of skeletonization.

Certified as a Living Heritage Company, B.R.M Chronographes has been upholding a demanding French watchmaking expertise for over twenty years, fueled by a passion for motorsports. With the V6 Moon Master, the manufacture reaches a new milestone: a fully hand-crafted skeletonization, revealing beneath a genuine mother-of-pearl dial the full complexity and beauty of the movement.

SKELETONIZATION AT THE HEART OF CREATION

The V6 Moon Master proudly displays its automatic movement with a visible escapement, fully skeletonized and meticulously hand-finished in the manufacture's workshops. Wheels, rubies, and the escapement are revealed beneath a sapphire crystal, showcasing the precision of the mechanism within an open architecture. This transparency is not merely technical: it is a key part of the watch's visual identity.

Each bridge is carefully skeletonized to lighten the movement's structure while preserving its robustness. This artisanal work unveils a delicate balance between watchmaking mastery and aesthetic expression, transforming the mechanics into a true sculpture in motion.

A BOLD COMBINATION OF MATERIALS

The V6 Moon Master also stands out for its daring interplay of materials, a hallmark of B.R.M Chronographes' DNA. The polished bronze case, a living material par excellence, gives the watch a unique character. Over time, the bronze develops a natural patina, making each piece truly one of a kind. The bezel is treated with blue ceramic, providing contrast and modernity while ensuring excellent scratch resistance.

The lugs, also crafted in polished bronze, are highlighted by a hand-applied blue lacquer groove, emphasizing the model's sporty and technical character.
At the center, the genuine mother-of-pearl dial captures the light, revealing subtle iridescent variations depending on the viewing angle. This natural material adds depth and elegance to the composition, creating a harmonious dialogue between refinement and mechanical performance.

TECHNICAL SPECIFICATIONS

The V6 Moon Master is available in two versions: one in polished bronze with blue ceramic treatment, and the other in stainless steel with a black skeleton dial, offering two distinct expressions of the same character.

V6 Moon Master Nacre

Refined elegance

- Polished bronze case with blue ceramic treatment
- Mother-of-pearl dial
- Polished bronze lugs with hand-applied blue lacquer
- Skeletonized EV42 movement, hand-finished and hand-painted
- Bronze markers on blue ceramic rehaut
- Bronze hands with tips coated in Super-LumiNova®
- Blue Alcantara® strap with gold perforations and double gold stitching

V6 Moon Master Graphite

Deep night

- Polished stainless steel case
- Black dial with hand-applied black lacquer and appliqués
- Polished stainless steel lugs
- Skeletonized EV42 movement, hand-finished and hand-painted
- Black markers on the rehaut
- Metal hands with tips coated in Super-LumiNova®
- Grey Milanese mesh strap

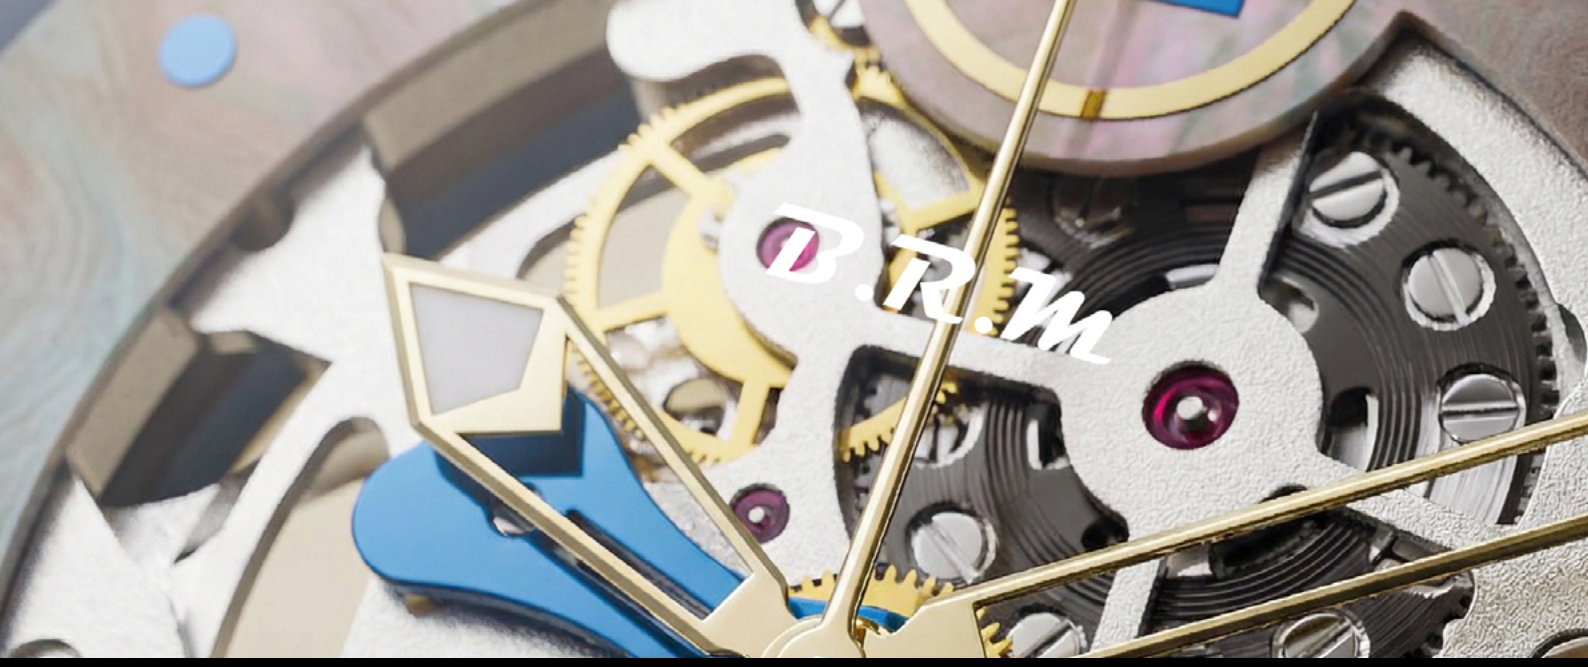

A STRONG WATCHMAKING SIGNATURE

With the V6 Moon Master, B.R.M Chronographes once again asserts its vision of watchmaking: bold, mechanical, and profoundly expressive. Combining watchmaking craftsmanship, contemporary aesthetics, and the heritage of motorsports, this creation embodies the subtle balance that defines every timepiece from the manufacture. A watch conceived as an object of passion, where every detail reflects the exacting standards and creativity of an independent French maison.

ABOUT

B.R.M Chronographes

A French watchmaking brand, B.R.M Chronographes was founded in 2003, driven by the commitment and passion for precision mechanics of its founder, Bernard Richards.

Fully independent, this manufacture in Magny-en-Vexin, on the outskirts of Paris, produces only unique pieces, entirely hand-finished and fully customizable through an online configurator. Using cutting-edge materials such as stainless steel, titanium, carbon, Fortal® HR, and Makrolon®, the brand offers its clients—motorsport enthusiasts—exceptional, handcrafted products.

In 2021, the French manufacture was awarded the 'Entreprise du Patrimoine Vivant' (Living Heritage Company) distinction by the French State. This recognition honors the excellence of the maison's artisanal know-how, as well as its ongoing technological and environmental commitment.
